## Massage My Woman Experiential Taster

Three hours / For men / Sloane Square, London

### Discover the pleasure of giving

A guided, hands-on introduction to the flow, confidence and creativity of sensual massage. Give a complete, carefully selected massage with Colin beside you throughout.

From £300 • Three receiver options • One-to-one guidance

## A taster with real hands-on experience

An inviting first step for men curious about sensual massage, whether for a partner or a future training pathway.

This is an experiential session, not a qualification. You work with a vetted female volunteer or a partner or female friend you bring. Colin guides positioning, pace, pressure and communication. You do not need to memorise a routine or perform independently.

### WHO IT SUITS

- You want to become a more attentive, creative lover and learn by doing.
- You would like to practise with a volunteer before sharing new ideas with a partner.
- You are considering Foundation or professional training and want to experience Colin's teaching style.
- You are curious about whether giving pleasure can be as rewarding as receiving it.

### WHAT TO EXPECT

A private three-hour appointment close to Sloane Square. You explore relaxation, anticipation, female arousal and a limited selection of therapeutic, sensual and intimate techniques. The massage adapts to the receiver's stated preferences and response.

No experience needed. The session is for adults aged 18+. Clear boundaries are agreed beforehand and consent can be changed or withdrawn at any point.

# A thoughtful journey from first touch

Colin stays beside you, demonstrating where helpful and guiding your hands as the massage unfolds.

01

## OVERTURE

Gentle head, shoulder and back touch helps the receiver settle and builds trust.

02

## REVELATION

Therapeutic work through the back, buttocks and legs; carefully paced teasing touch begins to build anticipation.

03

## SEDUCTION

The massage becomes more sensual. Agreed external vulval or clitoral touch may be introduced.

04

## ABANDONMENT

A limited erotic phase may focus on external stimulation, rhythm, communication and the receiver's response.

05

## RESOLUTION

Slow down, cover the receiver, allow rest and invite feedback.

The receiver sets the pace. Intimate elements are included only when agreed in advance and welcomed in the moment. Internal, oral, assertive and more advanced techniques are outside this taster's standard scope.

## Time to explore, practise and reflect

30 MIN

### Introduction

Meet Colin and the receiver; discuss your aims, preferences, boundaries and the basics of communication and female arousal.

2 HOURS

### Guided massage

Give a selected version of the Massage My Woman routine, with Colin guiding posture, movement, pressure and pace.

30 MIN

### Rest and feedback

Give the receiver time to settle, hear how your touch felt and discuss what you might explore next.
