SCHOOL OF SENSUAL MASSAGE / MAN-TO-MAN TRAINING

Touch & Turn On

Combined Foundation & Intermediate

12 hours / Four private 3-hour modules / Sloane Square

Two levels. One learning journey.

Private, personally guided training for a man learning to give a complete sensual massage to another man. Build a secure Foundation, then develop a wider, more responsive Intermediate sequence.

MALE STUDENT + MALE RECEIVERS / CONSENT-LED TRAINING

A complete 12-hour progression

Foundation and Intermediate are taught in four private three-hour modules.

Begin with a structured back-of-body massage and learn to connect therapeutic touch, sensual anticipation and agreed intimate techniques. Intermediate revisits that sequence and adds face-up massage, more positions and edging. Colin demonstrates, observes and adapts the tuition to you and each male receiver.

01 • Foundation

Set-up, consent, pressure, back, arms and legs; attentive pacing and the start of the male-to-male routine.

02 • Foundation

Refine body connection, buttock, groin, testicle and penis touch; practise a responsive ending.

03 • Intermediate

Repeat the Foundation sequence, turn the receiver face-up and introduce feet, legs, chest and towel work.

04 • Intermediate

Develop a more independent massage with nipple, penis-reach and external anal teasing, varied positions and edging.

Build the complete Foundation

The first two modules establish a clear, confident back-of-body routine.

01 Preparation & therapeutic touch

Welcome, discuss boundaries and receiver preferences, then learn head, neck, shoulder, back, arm and leg massage with useful pressure and positioning.

02 Sensual connection

Introduce feather and fingertip touch, body pressure, side work, buttock massage and controlled body contact while noticing the receiver's feedback.

03 Agreed erotic elements

Develop perineal and external anal teasing, testicle techniques, penis massage and several comfortable body positions, where mutually agreed.

04 Foundation ending

Learn to slow, pause or finish stimulation. The receiver may choose an orgasmic ending, but it is never a performance target.

Extend the massage face-up

The next two modules add variety and give you more independence in your decisions.

01 Turn & settle

Cover the male receiver, turn him face-up and restore a calm pace with foot, ankle and leg massage.

02 New sensory choices

Work through a towel, then add shoulder, neck, chest, arm and hand massage, agreed nipple play and penis contact from new positions.

03 Responsive intimacy

Explore leg lift, buttock and external anal teasing, the receiver's preferred forms of stimulation and clear handling of reciprocal touch.

04 Edging & integration

Practise pauses and changes in pace, then offer a more complete student-led sequence with Colin's guidance and receiver feedback.

Read the man, not a script

Different men have different preferences, sensitivities and responses.

Four personal sessions

Discussion, live demonstration, guided student practice and direct feedback are built into each module. The four-session format gives you time to practise and return with questions.

Receiver choice

Choose four different male volunteers, or bring your male partner or intimate friend for one module and work with three male volunteers for the others.

Consent throughout

An erection is a physical response, not blanket permission. The student and receiver can change their boundaries or stop any element at any time.

A tailored curriculum

The elemental guide shows possible teaching content. Colin chooses a suitable progression according to the student's ability and confidence at the time and each male receiver's consent and comfort.

Foundation elements

Introduced and practised across the first six hours.

The chart describes the potential elements of each level, not a fixed checklist or a promise that every technique will be taught.
