Each level is six hours across two private three-hour modules. Intermediate follows Foundation; Advanced follows Foundation and Intermediate, or equivalent experience agreed with Colin. Across the 26-hour Core, students practise with eight different adult male receivers.

FOUNDATION / 6 HOURS	INTERMEDIATE / 6 HOURS	ADVANCED / 6 HOURS
Begin with trust and therapeutic touch. Agree aims, preferences and boundaries. Practise preparation and a back-of-body routine, then develop comfortable pressure, body mechanics and sensory pacing with ongoing feedback.	Refine, extend and integrate. Build face-up work, turning and transitions into the Foundation routine. Develop timing, fluidity, agreed options and a longer student-led sequence.	Explore, then integrate. Consolidate earlier skills and select advanced options with attention to preparation, hygiene, communication, personal limits and professional judgement.
Module 1: opening, preparation and guided sequence development.	Module 1: review and build new transitions and varied tempo.	Module 1: guided exploration within agreed boundaries.
Module 2: whole-body connection and responsive pacing.	Module 2: independent practice and tutor feedback.	Module 2: integrate skills and review feedback.

Sensory touch

Practical learning

Colin demonstrates, guides your hands and helps you reflect on pressure, timing, body mechanics and communication. Receivers provide direct feedback. Consent is renewed throughout; a physical response is never treated as permission.

Professional practice and assessment / 6 hours

The final two three-hour modules each include a 75-minute professional-style massage for a different male receiver. Practise managing arrival, opening conversation, consent, pacing, safety and the full session. Colin observes and assesses the first; the second develops greater independence. Receiver feedback supports reflection.

Certificate: awarded after successful completion of required modules, assessments and payments. Attendance alone does not guarantee certification; technique, consent awareness, communication, boundaries and professional judgement are assessed.

BEFORE	DURING	AFTER
Agendas, receiver information, preparation guidance and learning material.	Personal coaching, demonstration, correction, receivers, towels, oils, music, refreshments and private teaching space.
